

## GOVERNMENT OF ANDHRA PRADESH ABSTRACT

## Women Development, Child Welfare and Disabled Welfare Department Persons with Disabilities - Guidelines for evaluation of various disabilities and procedure for certification - Comprehensive Orders - Issued. <br> WOMEN DEVELOPMENT, CHILD WELFARE \& DISABLED WELFARE (DW) DEPARTMENT

1. G.O.Rt.No.109, WD CW \& L (WH.Desk) Dept.Dt:15.06.1992.
2. G.O.Ms.No.21, WD \& CW (WH) Dept. Dated 23.03.1998.
3. G.O.Ms.No.41, WD CW \& DW Dept. Dated 9.06.1998
4. G.O.Ms.No.27, WD CW \& DW (DW)Dept. Dated 09.08.2000
5. Govt. Memo .No.10195/DW.A2/2002,WD, CW \& DW

Dept. dated 18.11.2002
6. G.O.Ms.No.56, WDCW \& DW (DW) Dept. dt.2.12.2002
7. G.O.Ms.No.22, WD CW and DW Dept. Dated 7.7.2008.
8. The Persons with Disabilities Act, 1995
9. Guidelines for evaluation of various disabilities issued by Government of India in 2001 and 2002.
10. G.O.Ms.No.115, WD CW \& L (WH.Desk) Dept., Dated: 30.07.1991.

## O R D E R:-

In the G.Os. $1^{\text {st }}$ to $7^{\text {th }}$ read above, orders were issued by the Government on constitution of Medical Boards, Assessment of disabilities, Constitution of Appellate Medical Boards, percentage of disability for facilities, concessions and benefits and action for producing of false certificates in claim of reservation etc.
2. The Government of India had enacted the Persons with Disabilities (Equal Opportunities, Protection of Right and Full Participation) Act, 1995 and the Act came into force in Andhra Pradesh on 7.2.1996. Keeping in view the enactment of the Persons with Disabilities Act, 1995 with Rules notified by Government of Andhra Pradesh and Government of India guidelines on evaluation of various disabilities and procedure for certification issued in 2001 and 2002 and superseding the orders issued from $1^{\text {st }}$ to $7^{\text {th }}$ read above, Government hereby issues the following comprehensive orders:

## I. Definition of Disabilities:-

The following definitions mentioned in the Persons with Disabilities (Equal Opportunities, Protection of Rights and Full Participation) Act, 1995 and the National Trust for Welfare of Persons with Autism, Cerebral Palsy, Mental Retardation and Multiple Disabilities Act, 1999 are adopted:

Disability therefore includes:-
(i) blindness;
(ii) low vision;
(iii) leprosy cured;
(iv) hearing impairment;
(v) locomotor disability;
(vi) mental Retardation;
(vii) mental Illness
a) Blindness refers to a condition where a person suffers from any of the following conditions, namely:-
(i) total absence of sight; or
(ii) visual acuity not exceeding $6 / 60$ or $20 / 200$ (snellen) in the better eye with correcting lenses; or
(iii) limitation of the field of vision subtending an angle of 20 degree or worse;
b) Person with Low vision means a person with impairment of visual functioning even after treatment or standard refractive correction but who uses or is potentially capable of using vision for the planning or execution of a task with appropriate assistive device i.e., a person with impairment of vision of less than $6 / 18$ to $6 / 60$ with best correction in the better eye or impairment of field in any of the following categories:
(i) Reduction of fields less than 50 degrees
(ii) Heminaopia with macular involvement
(iii) Attitudinal defect involving lower fields
c) Leprosy cured person means a person who has been cured of leprosy, but is suffering from not less than $40 \%$ of disability as follows:-
(i) loss of sensation in hands or feet as well a loss of sensation and paresis in the eye and eye lid but with no manifest deformity;
(ii) manifest deformity and paresis but having sufficient mobility in their hands and feet to enable them to engage in normal economic activity;
iii) extreme physical deformity as well as advanced age which prevents him from undertaking any gainful occupation; and the expression "Leprosy cured" shall be construed accordingly;
(iv) The "Leprosy Cured" persons generally become "Locomotor Disabled" and the Medical Certificate may, in such cases have to be issued under the category of Locomotor Disability.
d) Hearing impairment means loss of sixty decibles or more in the better ear in the conversational range of frequencies.
e) Locomotor disability means disability of the bones, joints or muscles leading to substantial restrictions of the movement of the limbs which includes Dwarfs, persons with Hunch back, leprosy cured persons, persons suffering from Muscular Dystrophy or any form of Cerebral palsy.
f) Cerebral Palsy means a group of non progressive conditions of a person characterized by abnormal motor control posture resulting from brain insult or injuries occurring in the pre-natal, peri-natal or infant period of development.

$$
\text { :: } 3 \text { :: }
$$

g) Mental retardation means a condition of arrested or incomplete development of mind of a person which is specially characterized by sub-normality of intelligence.

| Categorization of Mental Retardation |  |  |
| :--- | :---: | :---: |
| Category | I Q | Percentage of <br> Disability |
| i) Mild | $50-69$ | $50 \%$ |
| ii) Moderate | $35-49$ | $75 \%$ |
| iii) Severe | $20-34$ | $90 \%$ |
| iv) Profound | Less than 20 | $100 \%$ |

h) Mental illness means any mental disorder other than mental retardation.

| Categories of Mental Illness |  |  |
| :--- | :---: | :---: |
| Category | Global Disability Score (Total <br> Disability Score + DOI Score) | Percentage of <br> Disability |
| Moderate | $7-13$ | $40-70 \%$ |
| Severe | $14-19$ | $71-99 \%$ |
| Profound | 20 | $100 \%$ |

i) Multiple disabilities means a combination of two or more disabilities as defined in Clause (i) of Section 2 of the Persons with Disabilities Act 1995 Act.
j) Autism means a condition of uneven skill development primarily affecting the communication and social abilities of a person, marked by repetitive and ritualistic behaviors;
3. Person with disability means a person suffering from not less than forty percent of any disability as certified by a medical authority except Hearing Impairment. Hearing Impairment means loss of sixty decibles or more in the better ear in the conversational range of frequencies which corresponds to 85 dBs Hearing threshold on the audiogram in the better ear i.e., 85 dB hearing level in audiogram -25 dB upper limit of normal hearing $=60 \mathrm{~dB}$ hearing loss as per provision under "Persons with Disabilities Act, 1995".

## II. Evaluation and Issue of Disability Certificate:

i) The guidelines for evaluation of various disabilities and procedure for certification issued by the government of India in the $9^{\text {th }}$ read above shall be followed (Annexure-I).
ii) The Government hereby constitute the Medical Boards consisting of three members, of whom atleast one shall be a specialist/s in the particular field for assessing the disability / disabilities.
iii) An Audiologist with M.Sc. (Speech \& Hearing / Audiology Language and Speech Pathology \{ASLP\} or Equivalent) qualification having registration with Rehabilitation Council of India should be part of the Medical Board for issuing hearing disability certificates.
iv) All the District Headquarters Hospitals /Government Teaching Hospitals are hereby notified as District Medical Boards and authorized to give certificates for persons with disabilities.
v) Whenever required the Chairman of the Medical Board may co-opt other Experts/Specialists in addition to members comprising in the Medical Board.

$$
:: 4 \text { :: }
$$

vi) Further, the Superintendent is authorized to nominate one of the Members in the Medical Board as his nominee to act as Chairman of the Medical Board.
vii) Specified test as indicated in Annexure-I should be conducted by the Medical Board and recorded before certificate is issued.
viii) The certificate would be valid for a period of five years or for such period as may be specified for those whose disability is temporary. For those who acquire permanent disability, the validity can be shown as permanent. The specimen copy of the disability certificate is enclosed (Annexure-II)
ix) All the records pertaining to the assessment shall be kept in the custody of the concerned Superintendent of the Hospitals.
x) On representation by the applicant, the Medical Board may review the decision having regard to all the facts and circumstances of the case and pass such order in the matter as it thinks fit within 20 days from the date of receipt of the application.
xi) All the persons with disabilities shall be assessed afresh regarding percentage of disability. All the existing certificates shall be replaced by reassessing the persons with disabilities by the concerned District Medical Board as per the new guidelines to be issued separately by Rural Development Department. For this purpose, the District Collector in consultation with the Superintendent, District Headquarters Hospitals and Superintendent of Teaching Hospitals are authorized to constitute required Medical Boards within the district. The old certificates shall become invalid after completion of the reassessment and issue of certificates afresh.
xii) After completion of the assessment of the degree of disability of all the persons with disabilities in camp mode as per new guidelines, the Medical Boards shall meet atleast once in a fort-night in order to assess and issue Medical Board Certificates to new cases and left over persons with disabilities.
(xiii) In case of loss of certificate, the concerned person with disabilities shall apply to the concerned Superintendent, District Headquarters Hospitals/Teaching Hospitals along with F.I.R. and non traceable certificate issued by the concerned police. The Medical Board after due assessment shall issue a Medical Board Certificate within 20 days from the date of receipt of the application.

## III. Appellate Authority:-

i) Government hereby constitutes State Appellate Medical authorities in the State to resolve the disputes regarding the degree of disability. The State Appellate Medical authority shall consist of the following persons:-
a) Superintendent of the Institution Hospital : Chairman
b) Head of the department of concerned disability in Hospital/Institution
c) Expert in the specified field of handicapped i.e., ophthalmologist in the case of Visually Handicapped; ENT surgeon in the case of speech and Hearing Handicapped; Orthopaedic surgeon in the case of Orthopaedically Handicapped; Clinical Psychologist / Psychiatrist /Paediatrician; in the field of Mentally Handicapped; Psychiatrist in case of Mental illness whenever required.(to be nominated by the Chairman, Medical Board)
ii) Disability wise Appellate Medical Boards are constituted as under:

| a) Orthopaedically Handicapped/ <br> Locomotor Disability/Leprosy <br> cured/Dwarf/ Hunchback/ <br> Mascular Dystrophy | Osmania General Hospital, Hyderabad./ <br> Gandhi Hospital, Hyderabad |
| :--- | :--- |
| b) Blindness/ Low vision | Sarojini Devi Eye Hospital, Hyderabad. |
| c) Mental Retardation | Institute of Mental Health, Hyderabad / <br> National Institute for the Mentally <br> Handicapped |
| d) Mental Illness | State Institute of Mental Health, <br> Hyderabad |
| e) Hearing Impairment | Govt. ENT Hospital, Koti, Hyderabad. |

iii) The Chairman, Appellate Medical authority may co-opt other experts whenever required.
iv) The Director General of Health Services, Ministry of Health and Family Welfare will be the final authority, should there arise any confusion / doubt regarding the interpretation of the definition / classification / evaluation lists etc.

## IV.Action for fraudulently availing any benefit meant for Persons With Disabilities:-

(i) It has been represented to the Government that some normal persons are being appointed to various posts based on bogus medical certificates resulting in denial of the benefit to the genuinely disabled persons apart from injustice to the meritorious open category candidates.
(ii) All the Heads of Departments, the District Collectors appointing authorities are therefore requested to carefully verify the Medical certificates produced by the individuals and verify the genuineness before allowing them to appear for selection tests etc.
(iii) All cases of Hearing Impaired shall necessarily be referred to ENT Hospital for confirmation before issue of appointment orders.
(iv) Regarding doubtful cases of other categories they may be referred to the concerned State Appellate Medical Board for confirmation or otherwise of disability status, i.e. Sarojini Devi Eye Hospital, Hyderabad for Visually Handicapped and Gandhi Hospital/Osmania Hospital, Hyderabad for Orthopaedically Handicapped.
(v) Effective follow up action including prosecution/removal from service following the due procedure shall be taken in all cases of false claims based on fake/false certificate etc.
(vi) Those who fraudulently avail or attempt to avail any benefit meant for persons with disabilities, shall be punishable with imprisonment for a term which may extend to two years or with fine which may extend to twenty thousand rupees or with both as prescribed under Section 69 of Persons with Disabilities Act, 1995.
:: 6 ::
(vii) In addition those who attempt to seek employment on the basis of false medical board certificate i.e., certificates obtained by misrepresentation /clandestine manner etc., which tantamount to cheating shall also be debarred from Government employment for a period of 5 years.
(viii) Issue of Handicapped Certificates to ineligible persons i.e. without following prescribed procedure/proper evaluation shall entail stringent action against all concerned.

## V) RESERVATION OF POSTS FOR PERSONS WITH DISABILITIES:

i) Trifurcation of $3 \%$ reservation in favour of Physically Handicapped persons in so far as direct recruitment, subject to the condition that the categorization of the physically handicapped persons for the purpose of reservation in consonance with Sec. 33 of Persons With Disabilities (Equal Opportunities, Protection of Rights and Full Participation) Act, 1995 in employment, shall be as under:

Category of disability

1. blindness or low vision $1 \%$
2. hearing impairment $1 \%$
3. locomotor disability or cerebral palsy $1 \%$.
ii) If relevant factors governing recruitment are equal, preference in employment shall be given to the persons with disabilities having higher degree of disability.
4. The General Administration (Services) Department may take necessary action for amendment of A.P. State and Subordinate Service Rules accordingly.
5. The Commissioner, Department for the Welfare of Disabled and Senior Citizens is request to take necessary action accordingly.
6. This G.O., annexure - I \& II can be accessed from the website of http://goir.ap.gov.in.

## (BY ORDER AND IN THE NAME OF THE GOVERNOR OF ANDHRA PRADESH)

## M.CHAYA RATAN PRL. SECRETARY TO GOVERNMENT

## To

Commissioner, Dept. for the Welfare of Disabled and Senior Citizens, Hyd.
Director of Health, Hyderabad
Director, Medical Education
Commissioner, A.P. Vaidhya Vidhana Parishad,Hyd
All the District Collectors.
All the Superintendents, District Hospitals/Teaching Hospitals in the State Director, National Institute for the Mentally Handicapped

## Copy to:

All the Departments in Secretariat
All Heads of Departments
Secretary to G.O.I., MSJ\&E, New Delhi
Chief Commissioner for Persons with Disabilities, New Delhi
P.S to Prl.Secretary to C.M.
P.S. to Minister(WDCW\&DW)
P.S. to Ministers (Medical Education \& Health Insurance, Health \& Family Welfare and Vaidya Vidhana Parishad \& Hospital Services)
S.F./S.Cs
//FORWARDED BY ORDER//

## ANNEXURE-I TO G.O.Ms.No.31,WD,CW\&DW(DW)Dept,Dt.01-12-2009

## Subiect:-Guidelines for evaluation of various disabilities and procedure for certification.

No. 16-18/ 97-NI. I.-In order to review the guidelines for evaluation of various disabilities and procedure for certification as given in the Ministry of Welfare's O.M. No. 4-2/83-HW.-III, dated the 6th August, 1986 and to recommend appropriate modifications/alterations keeping in view the Persons with Disabilities (Equal Opportunities, Protection of Rights and Full Participation) Act, 1995, Government of India in Ministry of Social Justice and Empowerment, vide Order No. 16-18/97-NI. I, dated 28-8-1998, set up four committees under the Chairmanships of Director General of Health Services-one each in the area of mental retardation, Locomotor/ Orthopaedic disability, Visual disability and Speech \& Hearing disability. Subsequently, another Committee was also constituted on 21-7-1999 for evaluation, assessment of multiple disabilities and categorization and extent of disability and procedures for certification.
2. After having considered the reports of these committees the undersigned is directed to convey the approval of the President to notify the guidelines for evaluation of following disabilities and procedure for certification:

1. Visual impairment
2.Locomotor / Orthopaedic disability
2. Speech \& hearing disability
3. Mental retardation
4. Multiple Disabilities

Copy of the Report is enclosed herewith as Annexure.
3. The minimum degree of disability should be $40 \%$ in order to be eligible for any concessions/benefits.
4. According to the Persons with Disabilities (Equal Opportunities, Protection of Rights and Full Participation) Rules, 1996 notified on 31.12 .1996 by the Central Government in exercise of the powers conferred by sub-section (1) and (2) of section 73 of the Persons with Disabilities (Equal Opportunities, Protection of Rights and Full Participation) Act, 1995 (1of 1996), authorities to give disability Certificate will be a Medical Board duly constituted by the Central and the State Government. The State government may constitute a Medical Board consisting of at least three members out of which at least one shall be a specialist in the particular field for assessing locomotor/Visual including low vision/hearing and speech disability, mental retardation and leprosy cured, as the case may be.
5. Specified test as indicated in Annexure should be conducted by the medical board and recorded before a certificate is given.
6. The certificate would be valid for a period of five years for those whose disability is temporary. For those who acquire permanent disability, the validity can be shown as 'Permanent'.

7 The State Governments/UT Administrations may constitute the medical boards indicated in para 4 above immediately, if not done so far.

8 The Director General of Health Services Ministry of Health and Family Welfare will be the final authority, should there arise any Controversy / doubt regarding the interpretation of the definitions / classifications / evaluations tests etc.

## APPENDIX.III

## A. MENTAL RETARDATI ON

1. Definition:- Mental retardation is a condition of arrested or incomplete development of the mind, which is especially characterised by impairment of skills manifested during the development period which contribute to the over all level of intelligence, i.e., cognitive, language, motor and social abilities.

## 2. Categories of Mental Retardation:-

2.1 Mild Mental Retardation:- The range of 50 to 69 (standardised IQ test) is indicative of mild retardation. Understanding and use of language tend to be delayed to a varying independence may persist into adult life.
2.2 Moderate Mental Retardation: - The IQ is in the range of 35 to 49. Discrepant profiles of abilities are common in this group with some individuals achieving higher levels in visuo-spatial skills than in tasks dependent on language while others are markedly clumsy by enjoy social interaction and simple conversation. The level of development of language in variable: some of those affected can take part in simple conversations while others have only enough language to communicate their basic needs.
2.3 Severe Mental Retardation:- The IQ is usually in the range of 20 to 34 . In this category, most of the people suffer from a marked degree of motor impairment or other associated deficits indicating the presence of clinically significant damage to or mal-development of the central nervous system.
2.4 Profound Mental Retardation: - The IQ in this category estimated to be under 20. The ability to understand or comply with requests or instructions are severally limited. Most of such individuals are immobile or severally restricted in mobility, incontinent and capable at most of only very rudimentary forms of non-verbal communication. They posses little or no ability to care for their own basic needs and require constant help and supervision,

## 3. Process of Certifications:-

3.1 A disability certificate shall be issued by a Medical Board consisting of three members duly constituted by the Central/State Government. At least, one shall be a Specialist in the area of mental retardation, namely. Psychiatrist, Paediatrician and clinical Psychologist.

32 The examination process will consist of three components, namely, clinical assessment, assessment, of adaptive behaviour and intellectual functioning.
B. VISUAL DISABILITY

1. Definition: - Blindness refers to a condition where a persons suffers from any of the condition, namely,
i) total absence of sight; or
ii) visual acuity not exceeding $6 / 60$ or $20 / 200$ (snellen) in the better eye with best correcting lenses; or
iii) limitation of field of vision subtending an angle of 20 degree or worse;
2. Low Vision: - Persons with low vision means a person a with impairment of vision of less than 6/18 to 6/60 with best correction in the better eye or impairment of field in any one of the following categories:-
a) reduction of fields less than 50 degrees
b) Heminaopia with macular involvement
c) Altitudinal defect involving lower fields.
3. Categories of Visual Disability

All with correction

| Category | Better eye | Worse eye | \% age impairment |
| :--- | :--- | :--- | :--- |
| Category 0 | $6 / 9-6 / 18$ | $6 / 24$ to $6 / 36$ | $20 \%$ |
| Category I | $6 / 18-6 / 36$ | $6 / 60$ to Nil | $40 \%$ |
| Category II | $6 / 40-4 / 60$ or field <br> of vision $10^{\circ}-20^{\circ}$ | $3 / 60$ to Nil | $75 \%$ |
| Category III | $3 / 60$ to $1 / 60$ or field <br> of vision $10^{\circ}$ | F.C. at 1 ft . to Nil | $100 \%$ |
| Category IV | F. C. at 1 ft. to Nil or <br> field of vision $10^{\circ}$ | F.C. at 1 ft . to Nil | $100 \%$ |
| One eyed persons | $6 / 6$ | F. C. at 1 ft . to Nil <br> or field of vision $10^{\circ}$ | $30 \%$ |

Note: F.C. means Finger Count
4. Process of Certification

A disability certificate shall be issued by a Medical Board duly constituted by the Central/State Government having, at least three members. Out of which, at least one member shall be a specialist in ophthalmology.

## B. SPEECH \& HEARING DISABILITY

1. Definition of Hearing: - A persons with hearing impairment having difficulty of various degrees in hearing sounds is an impaired person.
2. : Categories of Hearing Impairment.

| Category | Type of Impairment | D B Level | Speech <br> discrimination | $\%$ age of <br> impairment |
| :--- | :--- | :--- | :--- | :--- |
| I | Mild hearing <br> Impairment | DB 26 to 40 <br> dB in better ear | 80 to $100 \%$ in <br> better ear | Less than <br> $40 \%$ to $50 \%$ |
| II (a) | Moderate <br> hearing | 41 to 60 dB in <br> better ear | 50 to $80 \%$ in <br> better ear | $40 \%$ to $50 \%$ |
| II (b) | Serve hearing <br> Impairment | 61 to 70 dB <br> hearing Impairment <br> in better ear | 40 to $50 \%$ in <br> better ear | $51 \%$ to 70\% |

i) Pure tone average of learning in 500 , and $2000 \mathrm{HZ}, 4000 \mathrm{HZ}$ by conduction ( AC and BC ) should be taken as basis for consideration as per the test recommendations.
ii) When there is only as island of hearing present in one or two frequencies in better ear, it should be considered as total loss of hearing.
iii) Wherever there is no response (NR) at any of the 4 frequencies (500, 1000,2000 and 4000 HZ ), it should be considered as equivalent to 100 dB loss for the purpose of classification of disability and in arriving at the average.

NOTE:- Category - I, II (a) above in the statement are not eligible for any benefits as per Clause (I) Section 2 of PWD Act, 1995 and as per Guidelines applicable in Andhra Pradesh in the spirit of PWD Act, 1995

## 3. Process of Certification

A disability certificate shall be issued by a Medical Board duly constituted by the Central and the State Government. Out of which, at least, one member shall be a specialist in the field of ENT.

## C. LOCOMOTOR DISABILITY

1 Definition:-
i) Impairment: An impairment in any loss or abnormality of psychological, physiological or anatomical structure or function in a human being.
ii) Functional Limitations: Impairment may cause functional limitations which are partial or total inability to perform those activities, necessary for motor, sensory or mental function within the range or manner of which a human being is normally capable.
iii) Disability: A disability, is any restriction or lack. ( resulting from an impairment) of ability to perform an activity in the manner or within the range considered normal for a human being.
iv) Locomotor Disability: Locomotor disability is defined as a persons inability to execute distinctive activities associated with moving both himself and objects, from place to place and such inability resulting from affliction of musculoskeletal and/or nervous system.
2. Categories of Locomotor Disability

The categories of locomotor disabilities are enclosed at Annexure-A.

## 3. Process of Certification

A disability certificate shall be issued by a Medical Board of three members duly constituted by the Central and the State Government, out of which, at least, one member shall be a specialist from either the field of Physical Medicine and Rehabilitation or Orthopaedics.

It was also decided that whenever required the Chairman of the Board may co-opt other experts including that of the members constituted for the purpose by the Central and the State Government.

On representation by the applicant, the Medical Board may review its decision having regard to all the facts and circumstances of the case and pass such order in the matter as it thinks fit.

## ANNEXURE-A

## LOCOMOTOR DI SABI LITY

REVISED GUI DELI NES FOR EVALUATI ON OF THE PERMANENT PHYSI CAL I MPAI RMENT

### 1.1 Guidelines for Evaluation of Permanent Physical Impairment of Upper Limb

1. The estimation of permanent impairment depends upon the measurement of functional impairment and is not expression of a personal opinion.
2. The estimation and measurement should be made when the clinical condition has reached the stage of maximum improvement from the medical treatment. Normally the time period is to be decided by the medical doctor who is evaluating the case for issuing the PPI Certificate as per standard format of the certificate.
3. The upper limb is divided into two component parts; the arm component and the hand component.
4. Measurement of the loss of function of arm component consists of measuring the loss of motion, muscle strength and co-ordinated activities
5. Measurement of loss of function of hand component consists of determining the prehension, sensation and strength. For estimation of prehension opposition, lateral pinch cylindrical grasp, spherical grasp and hook grasp have to be assessed as shown in Hand Component of Form A Assessment Proforma for upper extremity.

6 . The impairment of the entire extremity depends on the combination of the functional impairments of both components

## 2 ARM COMPONENT

Total value of arm component is $90 \%$

### 1.2.1 Principles of evaluation of range of motion (ROM) of joints

1. The value of maximum ROM in the arm component is $90 \%$
2. Each of the three joints of the arm is weighed equally ( $30 \%$;

## Example:

The intra articular fractures of the bones of right shoulder joint may affect range of motion even after healing. The loss of ROM should be calculated in each arc of motion as. envisaged in the Assessment Form A (Assessment Proforma for Upper Extremity).

| Arc of ROM | Normal value | Active ROM | Loss of ROM |  |
| :--- | :--- | :--- | :--- | :--- |
| Shoulder Flexion- | $0-220$ | 110 | $50 \%$ |  |
| Rotation | $0-180$ | 90 | $50 \%$ |  |
| Abduction-Adduction | $0-180$ | 90 | $50 \%$ |  |
| Hence the mean loss of ROM of shoulder will be $50+50+50 / 3=150 / 3=50 \%$ |  |  |  |  | Shoulder movements constitute $30 \%$ of the motion of the arm component, therefore the loss of motion for arm component will be $50 \times 0.3 \mathrm{~d}=15 \%$ If more than one joint of the arm is involved the loss of percentage in each joint is calculated separately as above and then added together.

### 1.2.2. Principles of evaluation of strength of muscles:

1 Strength of muscles can be tested by manual method and graded from 0-5 as advocated by Medical Research Council of Great Britain depending upon the strength of the muscles.
2. Loss of muscle power can be given percentages as follows:

| Manual muscle <br> Strength grading | Loss of Strength in <br> percentage |
| :--- | :--- |
| 0 | $100 \%$ |
| 1 | $80 \%$ |
| 2 | $60 \%$ |
| 3 | $40 \%$ |
| 4 | $20 \%$ |
| 5 | $0 \%$ |

3. The mean percentage of loss of muscle strength around a joint is multiplied by 0.30 .
4. If loss of muscle strength involves more than one joint the mean loss of percentage in each joint is calculated separately and then added together as has been described for loss of motion.

### 1.23 Principles of evaluation of coordinated activities:

1 The total value for coordinated activities is $90 \%$
Ten different coordinated activities should be tested as given in
Form A. (Appendix.I of Annexure-A)
2. Each activity has a value of $9 \%$

### 1.2.4 Combining values for the Arm Component:

The total value of loss of function of arm component is obtained by combining the value of loss of ROM, muscle strength and coordinated activities, using the combing formula.
$a+b(90-a)$
90
where $\mathrm{a}=$ higher value

$$
b=\text { lower value }
$$

## Example

Let us assume that an individual with an intra articular fracture of bones of shoulder joint in addition to $16.5 \%$ loss of motion in arm has $8.3 \%$ loss of strength of muscles and $5 \%$ loss of coordination. These values should be combined as follows:

Loss of ROM - 16.5\%
Loss of strength of muscles - 8.3\%
To add
Loss of coordination - 5\%
$16.5+8.3(90-16.5)$
90
$=23.33 \%$
$23.3+\underline{5(90-23.3)}=270 \%$
90
So the total value of loss of function in Arm component will be 27.0\%

### 1.3 HAND COMPONENT:

1 Total value of hand component is $90 \%$
2 The functional impairment of hand is expressed as loss of prehension, loss of sensation and loss of strength

### 1.3.1 Principles of evaluation of prehension:

1 Total value of prehension is $30 \%$
it includes
a) Opposition - 8\%

Tested against - Index finger - $2 \%$

- Middle finger-2 $\%$
- Ring $-2 \%$
- Little finger $-2 \%$
b) Lateral pinch -5\% - Tested by asking the patient to hold a key between the thumb and lateral side of index finger.
c) Cylindrical grasp - 6\% Tested for
i) Large object of 4 inches size - $3 \%$
ii) Small object of 1 inch size - $3 \%$
d) Spherical grasp -6\% Tested for
i) Large object of 4 inches size - $3 \%$
ii) Small object of 1 inch size - 3\%
e) Hook grasp - $5 \%$-Tested by asking the patient to lift a bag

### 1.3.2. Principles of Evaluation of sensation:

1. Total value of sensation in hand is $30 \%$
2. It should be assessed according to the distribution given below:
i) Complete loss of sensation

Thumb ray 9\%
Index finger 6\%
Middle finger 5\%
Ring finger 5\%
Little finger 5\%
ii) Partial loss of sensation: Assessment should be made according to percentage of loss of sensation in thumb/finger(s)

## 1 33. Principles of Evaluation of strength

1. Total value of strength is $30 \%$
2. It includes:
i) Grip strength 20\%
ii) Pinch strength $10 \%$

Strength of hand should be tested with hand dynamo-meter or by clinical method (grip method).
Additional weightage - A total of $10 \%$ additional weightage can be given to following accompanying factors if they are continuous and persistent despite treatment

1. Pam
2. Infection
3. Deformity
4. Mat-alignment
5. Contractures
6. Cosmetic disfiguration
7. Dominant extremity-4\%
8. Shortening of upper limb

First 1" - No weightage
For each 1" beyond first 1" -2\%
The extra points should not exceed $10 \%$ of the total Arm Component and total PPI should not exceed $100 \%$ in any case.

### 1.3.4. Combining values of hand component:

The final value of loss of function of hand component is obtained by summing up values of loss of prehension, sensation and strength.

### 1.3.5. Combining values for the Extremity:

Values of impairment of arm component and impairment of hand component should be added by using combining formula:

$$
a+b \frac{(90-a)}{90} \quad \begin{array}{ll}
a=\text { higher value } \\
b=\text { lower value }
\end{array}
$$

## Example:

| Impairment of Arm $-27 \%$ | $64+\frac{27(90-64)}{90}$ |
| :--- | :---: |
| Impairment of hand $-64 \%$ | $=71.8 \%$ |

The total value can also be obtained by using the Ready Recknoer table for combining formula given at

## Appendix.II of Annexure.A.

## 2. Guidelines for Evaluation of permanent physical I mpairment in Lower Limb.

The measurement of loss of function in lower extremity is divided into two components: Mobility and standing components

### 2.1 Mobility Component:-

1 Total value of mobility component is $90 \%$
2. It includes range of movement (ROM) and muscle strength

### 2.1.1. Principles of Evaluation of Range of Movement:

1. The value of maximum range of movement in mobility component is $90 \%$
2. Each of three joints i.e. hip, knee and foot-ankle component is weighed equally - 30\%.

## Example:

A fracture of right hip joint bones may affect range of motion of the hip joint. Loss of ROM of the affected hip in different are should be assessed as given in Form B (Assessment Proforma for lower extremity).

## (Appendix.I of Annexure.A)

| Affected Joint - Rt. Hip: |  |  |  |
| :--- | :---: | :---: | :---: |
| Arc of Movement | Normal ROM | Active ROM | Loss in percentage |
|  |  |  |  |
| Flexion-Extension | $0-140$ | 70 | $50 \%$ |
| Abduction-Adduction | $0-90$ | 60 | $33 \%$ |
| Rotations | $0-90$ | 30 | $66 \%$ |

$$
\text { Mean loss of ROM of Rt Hip }=50+33+66=50 \%
$$

3
Since the hip constitute $30 \%$ of the total mobility component of the lower limb the loss of motion in relation to the lower limb will be $50 \times 0.30=15 \%$

If more than one joint of the limb is involved the mean loss of ROM in percentage should be calculated in relation to individual joint separately and then added together as follows to calculate the loss of mobility component in relation to that particular limb.

## For example.

| Mean loss of ROM of Rt. Hip | $50 \%$ |
| :--- | :--- |
| Mean loss of ROM Rt. Knee | $40 \%$ |

Loss of mobility component of Rt. Lower Limb will be

$$
(50 \times 0.30)+(40 \times 0.30)=27 \%
$$

### 2.1.2. Principle of Evaluation of Muscle Strength:

1. The value for maximum muscle strength in the limb is $90 \%$
2. Strength of muscles can be tested by Manual Method and graded $0-5$ as advocated by MRC of Great Britain depending upon the residual strength in the muscle group.
3. Manual muscle grading can be given percentage like below: Power Grade of Ms Loss of strength in percentage

| 0 | $100 \%$ |
| :--- | ---: |
| 1 | $80 \%$ |
| 2 | $60 \%$ |
| 3 | $40 \%$ |
| 4 | $20 \%$ |
| 5 | $0 \%$ |

4. Mean percentage of muscle strength loss around a joint is multiplied by 0.30 to calculate loss in relation to limb
5. If there has been a loss muscle strength involving more than one joint the values are added as has been described for loss of ROM

### 2.1.3. Combining values for mobility component:

1. The values of loss of ROM and loss of muscle strength should be combined with the help of combining formula: $a+\underline{b(90-a)}$

## 90

( $a=$ higher value, $b=$ lower value)
Example: Let us assume that the individual with a fracture of right hip bones has in addition to $16 \%$ loss of motion, $8 \%$ loss of muscle strength also.

Combined values

| Motion-16\% | $16+\frac{8(90-16)}{90}$ |
| :--- | :--- |
| Strength-8\% | $=22.6 \%$ |

### 2.2 Stability component:

1. Total value of the stability component is $90 \%$
2. It should be tested by clinical method as given in From B (Assessment Proforma for lower extremity). There are nine activities, which need to be tested, and each activity has a value of ten per cent ( $10 \%$ ). The percentage valued in relation to each activity depends upon the percentage of loss stability in relation to
each activity.

### 2.3 Extra points:

Extra points have been given for pain, deformities, contractures, loss of sensations and shortening Maximum points to be added are $10 \%$ (excluding shortening). Details are as following.

| i) Deformity | In functional position In non-functional position | $\begin{gathered} 3 \% \\ 6 \% \end{gathered}$ |
| :---: | :---: | :---: |
| ii) Pain | Sever(grossly interfering with function) | 9\% |
|  | Moderate (moderately interfering with function) | 6\% |
|  | Mild (mildly interfering with function) | 3\% |
| iii) Loss of sensation | Complete Loss | 9\% |
|  | Partial Loss | 6\% |
| iv) Shortening | First 1/2" | Nil |
|  | Every 1/2" beyond first 1/2" | 4\% |
| v) Complications | Superficial complications | 3\% |
|  | Deep complications |  |

3. Guidelines for Evaluation of Permanent Physical Impairment of Trunk (Spine)

Basic guidelines:

1. As permenanent physical impairment caused by spinal deformity tends to change over the years, the certificate issued in relation to spine should be reviewed as per the standard format of the certificate given at Annexure-B of Appendix.III.
2. Permanent physical impairment should be awarded in relation to spine and not in relation to whole body.
3. Permanent physical impairment due to neurological deficit in addition to spinal impairment should be added by combining formula. The local effects of the lesions of the spine can be conventionally divided into traumatic and non-traumatic. The percentage of PPI in relation to each situation should be valued as follows:

### 3.1 TRAUMATIC LESI ONS:

### 3.1.1 Cervical spine injuries Percentage of PPI

 in relation to Spine| i) $25 \%$ or more compression of one or two adjacent | $20 \%$ |
| :--- | :--- |
| vertebral bodies with No involvement of posterior elements, |  |
| No nerve root involvement, moderate Neck rigidity and persistent |  |$\quad$ Soreness.

## i) Treated case of disc lesion with persistent pain

ii) Treated case with pain and instability

### 3.1.3. Thoracic and Thoracolumbar Spine Injuries:

i) Compression of less than $50 \%$ involving one
vertebral body with no neurological manifestation
ii) Compression of more than $50 \%$ involving single vertebra or more with involvement of posterior elements, healed, no neurological manifestations persistent pain, fusion indicated
iii) Same as (b) with fusion, pain only on heavy use of back
iv) Radiologically demonstrable instability with 30\% fracture or fracture dislocation with persistent pain.

### 3.1.3. Thoracic and Thoracolumbar Spine Injuries:

i) Compression of less than $50 \%$ involving one $10 \%$ vertebral body with no neurological manifestation
ii) Compression of more than $50 \%$ involving singlevertebra or more with involvement of posterior elements, healed, no neurological manifestations persistent pain, fusion indicated
iii) Same as (b) with fusion, pain only on heavy use of back $15 \%$
iv) Radiologically demonstrable instability with fracture or fracture $30 \%$ dislocation with persistent pain.

### 3.1.4 Lumbar and Lumbosacral Spine: Fracture

| a) | Compression of $25 \%$ or less of one or two adjacent Vertebral bodies, No <br> definite pattern or neurological Deficit | $15 \%$ |
| :--- | :--- | :--- |
| b) | Compression of more than $25 \%$ with disruption of Posterior elements, persistent <br> pain and stiffness, healed With or without fusion, inability to lift more than 10 kgs. | $30 \%$ |
| c) | Radiologically demonstrable instability in low lumbar or Lumbosacral spine with <br> pain | $35 \%$ |

### 3.15 Disc lesion:

|  |  |  |
| :--- | :--- | :--- |
| a) | Treated case with persistent pain | $15 \%$ |
| b) | Treated case with pain and instability | $20 \%$ |
| c) | Treated case of disc disease with pain activities of lifting <br> moderately modified | $25 \%$ |
| d) | Treated case of disc disease with persistent pain and <br> stiffness, aggravated by heavy lifting necessitating <br> modification of all activities requiring heavy weight lifting | $30 \%$ |

### 3.2 NON TRAUMATIC LESI ONS:

### 3.2.1 Scoliosis:

Basic guidelines - following modification is suggested.

- The largest structural curve should be accounted for while calculating the PPI and not the compensatory curve or both structural curves.

### 3.2.2 Measurement of Spine Deformity:

Cobb's method for measurement, of angle of curve in the radiograph taken in standing position should be used. The curves have been divided into following groups depending upon the angle of major structural scoliotic deformity.

| Group | Cobb's Angle | PPI in relation to Spine |
| :--- | :--- | :--- |
| I | $0-20$ | NIL |
| II | $21-50$ | $10 \%$ |
| III | $51-100$ | $20 \%$ |
| IV | $101 \&$ above | $30 \%$ |
| 3.2.3 Torso Imbalance: |  |  |

In addition to the above PPI should also be evaluated in relation the torso imbalance. The torso imbalance should be measured by dropping a plumb line from C7 spine and measuring the distance of plumb line from gluteal crease.
Deviation of Plumb line PPI

| Upto 1.5 Cm | $4 \%$ |
| :--- | ---: |
| $1.6-30 \mathrm{Cm}$ | $8 \%$ |
| $3.1-50 \mathrm{Cm}$ | $16 \%$ |
| 5.1 and above | $32 \%$ |

### 3.2.4 Head Tilt over C7 spine PPI

Upto 15 4\%
More than 15 10\%

### 3.2.5 Cardiopulmonary Test

In cases with scoliosis of severe type cardiopulmonary function tests and percentage deviation from normal should be assessed by one of the following method whichever seems more reliable clinically at the time of assessment. The value thus obtained may be added by combining formula.
a. Chest Expansion

4-5 Cm.
Less than 4 cm
reduction in Chest expansion
No expansion

| b counting in one breathe: |  |
| :--- | :---: |
| Breathe Count | PPI |
| More than 40 | Normal |
| $0-40$ | $5 \%$ |
| $0-30$ | $10 \%$ |
| $0-20$ | $15 \%$ |
| $0-10$ | $20 \%$ |
| Less than 5 | $25 \%$ |

3.2.6 Associated Problems: To be added directly but the total value of PPI in relation to spine should not exceed $100 \%$.
a) Pain

| -mildly interfering with ADL | $4 \%$ |
| :--- | :--- |
| -moderately restricting ADL | $6 \%$ |
| -severely restricting ADL | $10 \%$ |

b) Cosmetic Appearance:
-No obvious disfiguration with clothes on Nil
-mild disfigurement 2\%
-severe disfigurement 4\%
c) Leg Length Discrepancy.
-First $1 / 2$ " shortening Nil
-Every $1 / 2$ " beyond first $1 ⁄ 2$ " $4 \%$
d) Neurological deficit - Neurological deficit should be calculated as per established method of evaluation of PPI in such cases. Value thus obtained should be added telescopically using combining formula.

### 3.3 KYPHOSIS

Evaluation should be done on the similar guidelines as use for scoliosis with the following modifications:

### 3.3.1 Spinal Deformity

Less than 20

## PPI

21-40
Nil
41-60
10\%
Above 60
20\%
332 Torso Imbalance - Plumb line dropped from external ear normally falls at ankle level. The deviation from normal should be measured from ankle anterior joint line to the plumb line.
Less than 5 cm in front of ankle $4 \%$

5 to 10 cm in front of ankle $8 \%$
10 to 15 cm in front of ankle $\quad 16 \%$
More than 15 cm in front of ankle $32 \%$
(Add directly)

## Miscellaneous conditions:

Those conditions of the spine which cause stiffness and pain etc. are rated as follows.

| A | Subjective symptoms of pain, no involuntary <br> muscle spasm, not substantiated by <br> demonstrable structural pathology | $-0 \%$ |
| :--- | :--- | :--- |
| B | Pain, persistent muscles spasm and stiffness <br> of spine, substantiated by mild radiological <br> change. | $-20 \%$ |
| C | Same as B with moderate radiological <br> changes | $-25 \%$ |
| D | Same as B with severe radiological changes <br> involving any one of the regions of spine | $-30 \%$ |
| E | Same as D involving whole spine | $-40 \%$ |

## 4. Guidelines for Evaluation of PPI in cases of Short Stature/Dwarftsm:

1. Recumbent length or longitudinal height below 3rd percentile or less than 2 Standard Deviation from the mean is considered to have short stature.
2. The evaluation of a Short Statured person should be considered only when it is of disproportionate variety and is accompanied by an underlying pathological conditions, e.g., Achondroplasia,Chandrodysplasia Punctata, spondyloepiphysical dysplasia,mucopoly and acchrydosis, etc.
3. The ICMR norms as enclosed at Appendix III of Annexure. A should be used as a guideline for the height.
4. Every 1 " vertical height reduction should be valued as $4 \%$ permanent physical impairment.
5. Associated skeletal deformities should be evaluated, separately and total percentage of both should be added by combining formula.
6. Guidelines for Evaluation of Permanent Physical I mpairment in Amputees:

## Basic Guidelines:

1. In cases of multiple amputees if the total sum of permanent physical impairment is above $100 \%$, it should be taken as $100 \%$ only.
2. If the stump is unfit for fitting the prosthesis additional weightage of $5 \%$ should be added to the value.
3. In case of amputation in more than one limb percentage of each limb is added by combining formula and another $10 \%$ will be added but when only toes or fingers are involved only $5 \%$ will be added
4. Any complication in form of stiffness of proximal joint, neuroma infection, etc., should be given upto a total of $10 \%$ additional weightage.
5. Dominant upper extremity should be given $4 \%$ additional weightage.

|  | Upper Limb Amputations | PPI \& loss of <br> physical <br> function of each <br> limb |
| :--- | :--- | :--- |
| 1. | Fore-quarter amputations | $100 \%$ |
| 2. | Shoulder Disarticulation | $90 \%$ |
| 3. | Above Elbow upto upper 1/3 of arm | $85 \%$ |
| 4. | Above Elbow upto lower 1/3 of forearm | $80 \%$ |
| 5. | Elbow disarticulation | $75 \%$ |
| 6. | Below Elbow upto upper 1/3 of forearm | $70 \%$ |
| 7. | Below Elbow upto lower $1 / 3$ of forearm | $65 \%$ |
| 8. | Wrist disarticulation | $60 \%$ |
| 9. | Hand through carpal bones | $55 \%$ |
| 10. | Thumb through C.M. or though 1 ${ }^{\text {st }}$ MC joint | $30 \%$ |
| 11. | Thumb disarticulation through metacarpophalangeal Joint or <br> through proximal phalanx. | $25 \%$ |

| 12. | Thumb disarticulation through inter phalangeal joint or <br> Through distal phalanx. |  |  | $15 \%$ |  |
| :--- | :--- | :--- | :--- | :--- | :--- |
|  | Index <br> Finger <br> $(15 \%)$ |  |  | Middle <br> Finger <br> $(5 \%)$ | Ring Finger <br> $(3 \%)$ |
| 13. | Amputation <br> through Proximal <br> phalanx or <br> Disarticulation M.P. <br> through <br> Joint | $5 \%$ | $3 \%$ | $(2 \%)$ |  |
| 14. | Amputation <br> through Middle <br> phalanx | $10 \%$ | $4 \%$ | $2 \%$ |  |
| Disarticulation or <br> through PP joint. |  | $2 \%$ |  |  |  |
| 15. | Amputation Distal <br> through <br> phalanx or <br> disarticulation or <br> through DIP joint. |  | $2 \%$ | $1 \%$ | $1 \%$ |

1.3 Lower Limb Amputations:

| 1. Hind quarter | $100 \%$ |
| :--- | ---: |
| 2. Hip disarticulation | $90 \%$ |
| 3. Above knee upto upper $1 / 3$ of thigh | $85 \%$ |
| 4. Above knee upto lower $1 / 3$ of thigh | $80 \%$ |
| 5. Through keen | $75 \%$ |
| 6. B.K. upto 8 cm | $70 \%$ |
| 7. B.K. upto lower 1/3 of leg | $60 \%$ |
| 8. Through ankle | $55 \%$ |
| 9. Syme's | $50 \%$ |
| 10. Upto mid-foot | $40 \%$ |
| 11. Upto fore-foot | $30 \%$ |
| 12. All toes | $20 \%$ |
| 13. Loss of first toe | $10 \%$ |
| 14. Loss of second toe | $5 \%$ |
| 15. Loss of third toe | $4 \%$ |
| 16. Loss of fourth toe | $3 \%$ |
| 17. Loss of fifth toe | $2 \%$ |

## 6. Guidelines for Evaluation of Permanent Physical Impairment of Congenital deficiencies of the limbs. <br> 6.1 Transverse Deficiencies-

1. Functionally congenital transverse limb deficiencies are comparable to acquired amputations and can be called synonymously as congenital amputation, however, in some cases revision of amputation is required to fit in a prosthesis.
2. The transverse limb deficiencies therefore should be assessed on basis of the guidelines applicable to the evaluation of PPI in cases of amputees as given in the preceding chapter.

## For example:

Transverse deficiency Rt. Arm complete
(shoulder disarticulation)
Transverse deficiency at thigh complete
(hip disarticulation)
Transverse deficiency Proximal Upper arm 85\%
(Above elbow Amp.)
Transverse deficiency at lower thigh 80\%
(Above knee Amp. Lower 1/3)
Transverse deficiency forearm complete $75 \%$
(elbow disarticulation)
Transverse deficiency lower forearm 65\%
(Below Elbow Amp.)
Transverse deficiency carpal complete $60 \%$
(wrist disarticulation)
Transverse deficiency Metacarpal complete 55\%
(Disarticulation through carpal bones)

### 6.2 Longitudinal Deficiencies:

### 6.2.1 Basic Guidelines

1. In cases of longitudinal deficiencies of limbs due consideration should be given to functional impairment
2. In upper limb, loss of ROM loss muscular strength and hand functions like prehension, etc should be tested while assessing the case for PPI
3. In lower limb clinical method of stability component and shortening of lower limb should be given due weightage.

4 Apart from functional assessment the lost joint/part of body should also be valued as per distribution Given in chapter Guidelines for Evaluation of PPI in upper extremity and lower extremity The values so obtained should be added with the help of combing formula

## Example:

Congenital Absence of humorous where forearm bones directly articulate with scapula.
There will be miled reduction in ROM and strength of muscles in the existing joints apart from loss of body part.

Loss of shoulder joint can be given - 30\%
Loss of ROM of Elbow/Shoulder \& Wrist

All the components should be added together by the combining formula of

$$
a+\frac{b(90-a)}{90}
$$

6.2.2 In cases of loss of single bone in forearm the evaluation should be based on the principles of evaluation of Arm component which include Evaluation of ROM, Muscle strength-and coordinated activities. The values so obtained should be added together with the help of combining formula.
6.2.3 In cases of loss of single bone in leg the evaluation should be based on the principles of evaluation of mobility component and stability components of the lower extremity. The values obtained should be added together with the help of combining formula.

## 7.Guidelines for Evaluation of Physical Impairments in Neurological conditions.

### 1.1 Basic Guidelines:

1. Assessment in neurological conditions is not the assessment of disease but the assessment of its effects, i.e. clinical manifestations.
2. These guidelines should only be used for central and upper motor neurone lesions.
3. Proformas (form A \& B) will be utilized for assessment of lower motor neurone lesions, muscular disorders and other locomotor conditions.
4. Normally any neurological assessment for the purpose of certification has to be done six months after the onset of disease however exact time period is to be decided by the Medical Doctor who is evaluating the case and has to recommend the review of certificate as given in the standard format of certificate.
5. Total percentage of physical impairment in any neurological condition should not exceed $100 \%$
6. In mixed cases the highest score will be taken into consideration. The lower score will be added telescopically to it by the help of combining formula $a+b(90-a)$

## 90

7. Additional rating of $4 \%$ will be given for dominant upper extremity.
8. Additional weightage up to $10 \%$ can be given for loss of sensation in each extremity but the total physical impairment should not exceed $100 \%$.

### 7.2Table-I

| Neurological Status | Physical Impairment |
| :--- | :--- |
| Altered sensorium | $100 \%$ |

7.3 Table-II

Intellectual Impairment (to be assessed by Clinical Psychologist)

| Degree of Mental Retardation | IQ Range | Intellectual Impairment |
| :--- | :--- | :--- |
| Border line | $70-79$ | $25 \%$ |
| Mild | $50-69$ | $50 \%$ |
| Moderate | $35-49$ | $75 \%$ |
| Serve | $20-34$ | $90 \%$ |
| Profound | Less than 20 | $100 \%$ |

:18:
7.4 Table - III

| Speech defect | Physical Impairment |
| :--- | :--- |
| Mild dysarthria | Nil |
| Moderate dysarthria | $25 \%$ |
| Servere dysarthria | $50 \%$ |

7.5 Table - IV

| Type of Cranial Nerve Involvement | Physical Impairment |
| :--- | :--- |
| Motor cranial nerve | $20 \%$ for each nerve |
| Sensory cranial nerve | $10 \%$ for each nerve |

Sensory cranial nerve $10 \%$ for each nerve

### 7.6 Table-V

## Motor system Disability

Neurological Involvement
Hemiparesis:-

| - Mild | $25 \%$ |
| :--- | :--- |
| - Moderate . | $50 \%$ |
| - Severe | $75 \%$ |

- Severe
7.7 Table-VI

Sensory System Disability

| Extent of Sensory Deficit | Physical Impairment |
| :--- | :--- |
| Anaesthesia | Upto $10 \%$ for each limb |
| Hypoaesthesia | Depending upon \% of |
| Paraestheis | Loss of sensation up to 30\% depending |
| Hands/feet sensory loss | Upon \% of loss sensation |

7.8 Table - VIII

Bladder disability due to neurogenic Involvement

| Bladder Involvement | Physical Impairment |
| :--- | :--- |
| Mild (Hesitancy/Frequency) | $25 \%$ |
| Moderate (precipitancy) | $50 \%$ |
| Severe(occasional but recurrent <br> Incontinence) | $75 \%$ |
| Very Severe (Retention/Total <br> Incontinence) | $100 \%$ |

7.9 Table - VIII

Post Head Injury Fits and Epileptic Convulsions

| Frequency/Severity of Convulsions | Physical Impairment |
| :--- | :--- |
| Mild - occurrence of one convulsion | Nil |
| Only | $25 \%$ |
| Moderate 1-5 Convulsions/month on |  |
| Adequate - Medication | $50 \%$ |
| Severe 6-10 Convulsions/month on |  |
| Adequate medication | $75 \%$ |
| On adequate - Medication |  |

7.10 Table - IX

Ataxia (Sensory or Cerebellar)

| Severity of Ataxia | Physical Impairment |
| :--- | :--- |
| Mild (Detected on examination) | $25 \%$ |
| Moderate | $50 \%$ |
| Severe | $75 \%$ |
| Very Severe | $100 \%$ |

## 8 Guidelines for Evaluation of Physical Impairment due to Cardiopulmonary Diseases.

### 8.1 Basic Guidelines:-

1. Modified New York Heart Association subjective classification should be utilised to assess the functional disability.
2. The assessing physician should be alert to the fact that patients who come for disability claims are likely to exaggerate their symptoms. In case of any doubt patients should be referred for detailed physiological
evaluation.
3. Disability evaluation of cardiopulmonary patients should be done after full medical, surgical and rehabilitative treatment available, because most of these diseases are potentially treatable.
4. Assessment of cardiopulmonary impairment should also be done in diseases which might have associated cardiopulmonary problems, e.g.,amputees, myopathies, etc.
5. For respiratory assessment, routine respiratory functions test should be done, however, in cases of interstitial lung diseases, diffusion studies may be done.
6. In cases of Angina pectoris (chest pain) base line studies in resting ECG should be done. When there is persistence of symptoms, exercise or stress test should be done.

### 8.2 The proposed classification with loss of function is as follows:-

Group 0: A patient with cardiopulmonary disease who is asymptomatic (i.e. has no symptoms of breathlessness, palpitation, fatigue or chest pain).

Group 1: A patient with cardiopulmonary disease who becomes symptomatic during his ordinary physical activity but has mild restriction ( $25 \%$ ) of his physical activities.

Group 2: A patient with cardiopulmonary disease who becomes symptomatic during his ordinary physical activity and has $25-50 \%$ restriction of his ordinary physical activities.

Group 3: A patient with cardiopulmonary disease who becomes symptomatic during less than ordinary physical activity so that his ordinary physical activities are $50-75 \%$ restricted.

Group 4: A patient with cardiopulmonary disease who is symptomatic even at rest or on mildest exertion so that his ordinary physical activities are severely or completely restricted (75-100\%).

Group 5: A patient with cardiopulmonary disease who gets intermittent symptoms at rest (i.e. patients with bronchial asthma, paroxysmal nocturnal dyspnoea, etc.)

## 1. Definition of Multiple Disabilities:

Multiple disabilities means a combination of two or more disabilities as defined in clause (i) of Section
(2) of the Persons with Disabilities. (Equal Opportunities, Protection of Rights and Full Participation)

Act, 1'995, namely -
I. Locomotor disability including leprosy cured
II. Blindness/low vision
III. Speech and hearing impairment
IV. Mental retardation
V. Mental illness.

## 2. Guidelines for Evaluation: -

In order to evaluate the multiple disability, the same guidelines shall be used as have been developed by the respective sub-committees of various single disability, viz. Mental retardation, locomotor disability, visual disability, and speech and hearing disability and recommended in the meeting held on 29.2.2000 under the Chairmanship of Dr. S.P. Agarwal, Director General of Health Services, Government of India, with reference to Order No.16-18/96-NI.I, dated 28th August, 1998 and communicated to Ministry of Social Justice \& Empowerment, Government of India, vide letter No.S-13020/4/98-MH, dated 16th March, 2000.

However, in order to arrive at the total percentage of multiple disability, the combining formula

```
a + b (90-a). as given in the "Manual for Doctors to Evaluate
```

Permanent Physical Impairment, Developed by Expert Group meeting on Disability Evaluation", shall be used, where "a" will be the higher score and "b" Will be the lower score. However, the maximum total percentage of multiple disabilities shall not exceed $100 \%$.

For example, if the percentage of hearing disability is $30 \%$ and visual disability is $20 \%$, then by applying the combining formula given above, the total percentage of multiple disability will be calculated as follows:-
$30+\underline{20(90-30)}=43 \%$

## 3. Procedure for Certification of Multiple Disabilities:-

The procedure will remain the same as has been developed by the respective sub-committees on various single disabilities and finalized in a meeting under the Chairpersonship of Dr. S.P. Agarwal held on 29.2.2000. The final disability certificate for multiple disability will be issued by Disability Board which has given higher score of disability by combining the score of different disabilities using the combining formula, i.e., $a+\underline{b(90-a)}$. In case, where two scores of disability are

90
equal, the final certificate of multiple disability will be issued by any one of them as decided by Local authority
